

# Ariel Distributors

Ariel Compressors and OEM replacement parts are marketed through a long-established network of qualified distributors and packagers.

Since 2005 ETC “Orion-D” is a CNG packager and upstream/midstream packager of Ariel Corporation, USA. Starting from the year 2006 ORION-D is a official distributor of Ariel Corporation that allows us purchase/sell OEM spare parts for the compressors. Packagers will help you select the best products and provide a complete gas compression system for your application. They integrate Ariel gas compressors into gas compression systems that generally include: the compressor, driver, gas piping and auxiliary systems all mounted on a common structural steel base plate. It's the packager's responsibility to evaluate your application and provide you a gas compression system in accordance with design and installation requirements stated in the Ariel Packager Standards. Our Packager Standards ensure that every Ariel product is designed, manufactured, installed and maintained to meet your application and quality requirements.

- ◆ **Upstream/Midstream Packager** These packagers are typically involved in natural gas applications such as gathering, storage, transmission, re-injection, natural gas processing, acid gas injection and fuel gas booster. Other applications may include gas lift, vapor recovery, associated gas, landfill gas, air drilling or air / nitrogen injection. Hydrocarbon based natural gas, CO<sub>2</sub>, air and nitrogen would be common applications for these Packagers.
- ◆ **Process Packager** Process Packagers specialize in providing gas compression systems for industrial gas, chemical, petrochemical and refinery applications. Hydrogen, nitrogen, helium and natural gas feed streams either lubricated or non-lubricated would be common applications for these Packagers.
- ▲ **CNG Packager** CNG Packagers specialize on providing gas compression systems used for the refueling of Compressed Natural Vehicles.
- **Spare Parts Distributor** These distributors sell OEM replacement parts for Ariel gas compressors.
